About Me

I am a Full-Stack Web Developer with experience building websites and web applications. I work with both frontend and backend technologies such as React, Next.js, Node.js, and NestJS. I like learning new things and improving my skills. I also have experience teaching frontend development.

Work Experience

Full-Stack Web Developer

Andijan, Uzbekistan | 2024 – Present

- Worked on real web projects as a frontend developer.
- Improved website speed and fixed bugs.
- Worked on caching, performance, and better code structure.
- Created new pages and improved website performance.
- Built several practice projects to improve my skills.
- Made a full-stack **Uzum Market clone** project.
- Worked with databases, APIs, Prisma, Drizzle ORM, and AWS storage.

Frontend Teacher

Baliqchi IT Park | 1 Year

- Taught HTML, CSS, JavaScript, React, and frontend basics.
- Helped 6 students get certificates.
- Supported students with coding practice and projects.
